## KLEIN Hole-Cutters

Klein-Unibit Carbide Hole Cutters are super sharp... super fast...super durable...and super efficient.They are by far the finest and fastest hole cutters on today's market. They quickly and effortlessly cut clean, perfectly-round holes in a variety of materials up to 10-gauge thick. Included are steel,copper, brass, aluminum, fiberglass, PVC Formica®, Plexiglass®, and other laminates...even stainless steel. All operate in standard electric drills.

- Carbide edge holds sharpness for long life• No center punch required•
- Double-ended pilot-drill bit for durability• 135° split point ensures true starts with no walking• No cutting oil needed• Cuts mild and stainless steel faster than any other hole cutter• Slugs of cut material pop free easily• Cuts perfect circles without burrs or jagged edges • Cuts without hogging, chattering or vibrating • Furnished in handy resealable storage package
